INTRODUCTION

Hello! I'm Zack — a full-stack web developer and I've been building websites and web apps since 2012. I'm an incredibly detail-oriented person. I pride myself on writing clean, modular and maintainable code. I love building data driven web and mobile applications. Please, find my skills and experience below.

SKILLS

- Front end & back end web development (HTML, CSS, Javascript, PHP)
- Front end & back end frameworks/tools (Laravel, Angular/VueJS, Typescript, jQuery, Sass, Ionic)
- Mid-level DevOps/Server Administration (Linux, Nginx, Apache, Bash/Shell)
- Experience with Public APIs (RESTful, OAuth), as well as building private API's
- Software Design + User Interface/Experience Design

EDUCATION

Bear River High School, Garland, UT — Graduated May of 2006

UVSC (UVU), Orem, UT — 2008, Studied 11 mos. in Computer Science

EXPERIENCE

Senior Web Developer - Fluid Advertising - Bountiful, UT - April 2015 to October 2018 ->

Director of Development - Fluid Advertising - Bountiful, UT - October 2018 to Present

Responsible for developing pixel perfect designs from Photoshop or InDesign files. Personally setup and maintain the company's hosting services, using a VPS and Git deployments. Develop web and mobile applications for clients with specific needs. Research new technologies to bring to the team. Manage a team of junior to mid level developers.

Project Manager/Front End Developer - Allmoxy - Ogden, UT - July 2011 to January 2016

Deploying cloud based ERP software to medium & large manufacturing companies. Web Development (HTML, CSS, Javascript, multiple front-end frameworks), Account Management, Customer Service, Software Design and UI/UX Design. Coordinating new version releases and beta releases of the software. Building better tools for customizing and ordering complex products online.
